- **Programming Languages:** Javascript, Java, Python, C
- **Libraries/Frameworks:** React.js, TailwindCSS, Node.js, Express.js, Bootstrap
- **Tools / Platforms:** Git, Github, Netlify, Linux, REST API, Postman, AWS EC2
- **Databases:** MongoDB, SQL
- **Data Structures:** Arrays, Linked Lists, Stacks, Queues, Trees

WORK EXPERIENCE

AGC 2024 (NSHM Knowledge Campus) | Frontend Developer

July 2023 - Dec 2023

- Developed and maintained the 'ASI Kolkata NSHM' conference website.
- Managed real-time traffic and created web content for a seamless user experience.
- Improved site functionality, user engagement, and overall satisfaction.
- Enhanced web development skills and contributed to a professional portfolio.

Euphoria GenX | MERN Stack Internship

Oct 2023 - Nov 2023

- Developed a dynamic Ecommerce website and admin panel using MERN stack.
- Implemented scalable server-side infrastructure and optimized MongoDB databases.
- Improved project efficiency, user experience, and operational efficiency.
- Gained hands-on experience with Node.js, REST API, TailwindCSS, and SDLC models.

PROJECTS

Resume Builder | [Link](#)

React.js, Tailwind CSS

- Developed a user-friendly resume builder web application using React.js and Tailwind CSS.
- Implemented dynamic templates and customizable sections for tailored, professional resumes.
- Enabled easy PDF downloads of generated resumes.
- Designed a modern, responsive interface with Tailwind CSS for optimal user experience across devices.
- Utilized form inputs to allow users to effortlessly create and customize their resumes.

Food Delivery Website | [Link](#)

EJS, Express.js, Tailwind CSS, MongoDB, Socket.io

- Built a real-time food delivery website with Express.js, EJS, Tailwind CSS, MongoDB, and Socket.io for live order updates.
- Developed an intuitive admin panel for food item uploads and order management.
- Secured user authentication with Passport.js and Bcrypt for encrypted credentials.
- Integrated Stripe API for secure and seamless online payment processing.

Facial Recognition Attendance System | [Link](#)

EJS, Express.js, CSS, MongoDB, faceAPI

- Developed a web-based Attendance System using facial recognition technology with real-time face detection and recognition using faceApi JS library.
- Integrated MongoDB for secure attendance data storage and bcrypt for password hashing and salting.
- Designed an intuitive user interface with EJS templates and Vanilla CSS, using Express.js for backend development.
- Deployed the application on Netlify for seamless accessibility.

TwoGood UI Clone | [Link](#)

HTML, CSS, JS, GSAP

- Successfully cloned and customized the 'TwoGood' eCommerce website using HTML, CSS, and JavaScript.
 - Enhanced the website with responsive design using media queries.
 - Integrated GSAP for animations and smooth scrolling to improve UI/UX.
 - Demonstrated proficiency in front-end web development and responsive design techniques.
-
