Kolkata, West Bengal

EXPERIENCE

COLLEGE WEBSITE | FRONTEND WEB DEVELOPER

Kolkata | July 2023 – Now

- Currently I have a pivotal role in developing, maintaining and enhancing the organizational 'ASI Kolkata NSHM' college website which is based on 'Analytics Global Conference'.
- I manage real-time traffic on the fully functional website, showcasing the ability to contribute to high-impact projects.
- My responsibilities included web development, content management, and ensuring a seamless user experience.
- This experience allowed me to hone my skills in web development, teamwork, and adaptability in a dynamic online environment, further enhancing my professional portfolio.

EUPHORIA GENX | MERN STACK INTERN

Kolkata | Oct 2023 – Nov 2023

- During my internship at Euphoria GenX, I honed my skills of MERN stack development, focusing on React.js, Node.js/Express.js, and MongoDB.
- Developed a dynamic e-commerce website with an admin panel using MERN stack.
- Implemented scalable server-side infrastructure with Node.js/Express.js.
- Designed and optimized MongoDB database for efficient data management.
- Created a robust admin panel for streamlined management of product listings and orders.
- In this internship I transformed my concepts into a functional e-commerce platform, demonstrating expertise in MERN stack development and also learnt about the SDLC models for development.

AWS-ACADEMY | AWS CLOUD INTERN

Kolkata | Sep 2023 – Nov 2023

- During my internship with AWS-Academy, I gained a strong foundation in cloud computing fundamentals.
- I actively engaged in hands-on learning experiences that encompassed essential aspects of Amazon Web Services (AWS), a leading cloud platform.
- Through this opportunity, I developed a solid understanding of cloud architecture, provisioning and managing cloud resources, and implementing best practices for security and scalability.
- This experience equipped me with practical skills and knowledge crucial for harnessing the power of cloud technology to drive innovation and efficiency in modern business environments.

EDUSKILLS | CYBERSECURITY INTERN

Kolkata | July 2022 – Sep 2022

- As a cybersecurity intern at Eduskills, I had the opportunity to immerse myself in the dynamic field of cybersecurity.
- During my internship, I acquired valuable skills and knowledge that complement my role as a web developer.
- I gained a deep understanding of threat detection, risk assessment, and security protocols, which allowed me to develop secure web applications and websites.
- This experience has not only enhanced my ability to create web solutions with a focus on cybersecurity but has also instilled a strong commitment to safeguarding digital assets and user data.

SKILLS

PROGRAMMING LANGUAGES	Javascript, Python, Java, C/C++
LIBRARIES/FRAMEWORKS	React.js, TailwindCSS, Node.js, Express.js
TOOLS / PLATFORMS	Git & Github, Cyclic, Netlify, VS-code, Linux, Vim
DATABASES	mongoDB, mySQL

PROJECTS / OPEN-SOURCE

FACIAL RECOGNITION ATTENDANCE SYSTEM | [Link](#) EJS, CSS, Express.js, MongoDB, face-api.js

- Developed a web-based Attendance System using facial recognition technology with real-time face detection and recognition using face-api.js library.
- Integrated MongoDB for secure storage of attendance data and utilized bcrypt for password hashing.
- Designed an intuitive user interface with EJS templates, Vanilla CSS for styling and used Express.js for backend development.
- Deployed the application on Netlify for seamless accessibility.

PINTEREST CLONE | [Link](#) EJS, TailwindCSS, Express.js, MongoDB

- Developed a full stack Pinterest-inspired web application using Express.js for server-side logic and routing, MongoDB for database management, and EJS for dynamic rendering.
- It includes features like user authentication using Passport.js, create post, edit post, profile, edit profile.
- Applied modern development practices, Tailwind CSS for almost similar replication of Pinterest with responsive design.

INSTAGRAM-CLONE | [Link](#) EJS, TailwindCSS, Express.js, MongoDB

- Developed a feature-rich Instagram clone using EJS, TailwindCSS, Express.js, and MongoDB.
- Implementing user authentication, image uploading and dynamic content rendering.
- It includes almost all the essentials Instagram features like story updates, create post, edit post, profile section, edit profile.

WEATHER APP | [Link](#) HTML, CSS, JS

- Introducing my Weather App project, a sleek and user-friendly web application crafted with HTML, CSS, and JavaScript.
- This intuitive app provides real-time weather updates using API with a seamless and responsive design.
- Enhance your user experience with the Dark Mode toggle feature, seamlessly integrated into my Weather App project.

TWOGOOD CLONE | [Link](#) HTML, CSS, JS, GSAP

- Successfully cloned and customized the 'twoGood' e-commerce website, showcasing my ability to recreate complex web applications and enhance user experiences using vanilla HTML, CSS & JS.
- The website is responsive using media queries.
- I used GSAP for animations & smooth scrolling for better UI/UX.
